

Pinfeed Fanfold EDP - Long Run Custom

Pick labels we manufacture are used in some of the largest distribution centers in the country. They are designed for use in both flash fusion and dot matrix printers. These labels must perform flawlessly. We understand just how critical this is. Anything less can result in substantial delays and financial losses. Our strict quality standards and attention to detail ensure consistent, trouble-free performance. Combine that with proprietary methods and low overhead; and we can often cut label spend by 10-20% along with providing improved label performance. Please call for quotes & Ask about our low cost Risk FREE trials.
